

2022 in Review

We have had a really exciting year, despite paying more for ALL of it...

In April we hunted hard, and Felicia bagged a turkey. Both beneficial for our freezer and her business ;).

B and I took our annual trip to Boca Grande in June, and ate and drank well, and fished hard with our buddies Capt. Mark Bennett & his wife, Jenni (always the highlight of the trip).

We spent most of our summer Sundays with our friends Rick & Bev and a few other friends here and there by their pool where we enjoyed friendship and fellowship and some darn good food as well.

The first of August always brings about Regatta Weekend, and this years' races were fun and the weather cooperated for the most part.

Labor Day brought about an engagement and we are happy for Dylan & Hannah as they make their plans to spend their lives and many dogs together.

At the end of September we watched along with many of you as hurricane Ian basically wiped Boca Grande, as well as many other places in Florida off the map... Ideas of where to go tarpon fish now, anyone?? But for real???

The aftermath of hurricane Ian here did bring about a cull buck for Felicia, as we had watched this guy, and he had become blind over a couple of days.

In early October B harvested a Buck then a doe a few minutes later with his Bow.

November brought about B's annual trek to Batchtown, IL @ Hills & Hollers and he harvested a 265# 11 point buck there. And the Charleston Mercury did a feature article on Felicia & her Wadmalaw Wild Ties. To read it, go to her website www.ShopWWT.com and search for the Charleston Mercury Article.

Thanksgiving was celebrated with too much food and Wadmalaw family here on the island, and we are expecting a quiet Christmas here at the house, or possibly at the farm...

We hope that each of you has had a wonderful year, and cheers to what 2023 may bring, we hope for all of us that it will be a good year for all.

Cheers!
